Fundamental Analysis Module

Fundamental Analysis Module

www.ifmcinstitute.com/courses

Fundamental Analysis Course a one month programme specially designed for all students and professionals who wish to specialize in the stock market. The fundamental analysis provides the financial position of the company or financial depth of the company. Under financial analysis, we teach about financial statements, funds statements (cash flow statement or fund flow statement), ratios, P & L statement, balance sheet or etc. Fundamental analysis certification course will help you to identify in which sector or segment you have to enter to invest by evaluating a security/share or commodity by analysis of the industry after identifying the industry you have to do company analysis and identify the company, stock, currency or commodity in which you have to invest or trade

The module is based on Theory as well as practical. This Course includes event analysis, data analysis, news analysis and correlation of the effect of the change of any in all segments of the market. The fundamental analysis provides a basic knowledge about long term or short term investment (how to invest, when to invest, for how much to invest). This course will enable you to understand and predict the financial market movements with the tools regarding fundamental analysis.

APPLY NOW
